

Hessle High School & Sixth Form College

Welcome to our Open Evening

Maths

The Course

- aims to help all students enjoy Mathematics and to reach their full potential in this essential core subject
- encourages students to think logically and to articulate a clear and concise argument
- students are set based on previous mathematical successes
- nine or ten 1hour lessons over a 2 week timetable

During Key Stage 3 students will cover a wide range of topics:

- Arithmetic
- Algebra
- Data handling
- Space, shape and measure

Assessment

- regular formal assessment throughout the year
- diagnostically marked tasks or assessments approximately every 2 weeks, with feedback response from the student
- appropriate homework set in accordance with the Homework Policy
- class work marked regularly

How Parents Can Help

- make sure your child has all the essential equipment: pen, pencil, ruler, rubber, protractor, pair of compasses and a scientific calculator
- ask them practical questions about where Maths appears in every day life
- encourage them to attend Maths after school homework clubs and revision sessions
- help them develop good habits by discussing homework activities

Subject Leader: Mrs Meir

'Every child is capable of extraordinary achievement'
