

DATE: 2021/04/08

MODEL: SR10

SUBJECT: SR10 FUEL SPECIFICATION

PRIORITY – HIGH (INFORMATION)

The SR10 requires the use of premium grade unleaded fuel with the minimum octane ratings of:

MON, 91

RON, 98

Oxygen, 2.9%

And less than 5% ethanol

Radical recommends use of Shell V-power (UK spec), or Sunoco 260GT (available globally).

If your local fuel does not meet these minimum criteria, please send the full specification of your fuel to engines@radicalsportscars.com for review.

If fuel used does not meet the minimum rating, this could lead to internal engine damage which is not covered by Radical.
