MODEL: SR10

**NEW CAR ORDERS – OIL PRE-HEATER**

***PRIORITY – LOW (INFORMATION)***

---

The Radical SR10 is fitted with a laminover oil cooler. This has the benefit of rapidly heating the oil during engine warm up. As such the need for an oil tank pre-heater is no longer as necessary.

For early SR10 customers who selected the convenience pack option, Radical can either credit the value of the pre-heater or still supply the item for customers to fit themselves.

Moving forward the pre-heater will no longer be part of the convenience pack, but can still be ordered separately if desired.

For fitting instructions please contact: [technical@radicalsportscars.com](mailto:technical@radicalsportscars.com)

For parts supply please contact: [stores@radicalsportscars.com](mailto:stores@radicalsportscars.com)
