MODEL: SR3/SR10

STEERING WHEEL COMPATIBILITY

PRIORITY – LOW (INFORMATION)

From the beginning of this year, new SR3 and SR10 models have been supplied with Life Racing Power Delivery Units (PDU) which replace previously used AIM Power Delivery Module (PDM)

This change has required a redesign of the chassis wiring harness and the Formula steering wheel pinout.

This means that steering wheels supplied for cars with PDUs will not be fully backwards compatible with PDM cars. Newer steering wheels can be connected to directly, by plugging into the aim data port on the car rather than having to use the adapter wire.

Part Numbers –

AIM Steering Wheel SR3 PDM – SC0134

AIM Steering Wheel SR10 PDM – SC0135

AIM Steering Wheel SR3 Life Racing PDU – SC0155

AIM Steering Wheel SR10 Life Racing PDU – SC0154
