

Swift Enter Luxury Lodge Sector with New Whistler Lodge

The flagship range in the Swift Holiday Home collection for 2017 is the all new Whistler Lodge Twin Unit with an 8ft and 12ft split, offering a spacious 2 bedroom layout and Swift's renowned contemporary design.

It is built to the new BS3632:2015 standard for residential living that was introduced in 2015 and offers stylish, comfortable all year round living. The regulations set a higher standard for thermal efficiency and through improvements in roof, wall and floor insulation Swift surpass the standard.

The exterior is Cliffside CanExel cladding with anthracite glazing. Acadia Green and Mist Grey are also available as options. There are bi-fold doors to both sides and fixed full height windows to the front nearside, which brings the outdoors in. A decked inset feature is a nice touch to the side entrance door. As expected the home has excellent thermal performance with a high level of

insulation and 'Thermaglas' uPVC double glazing to keep running costs down.

The 20ft width allows spacious rooms. An imaginative layout provides an open plan kitchen, dining and living area. A contemporary shelving style feature wall adds interest and cloaking to the seating area from the entrance door. There is a utility room and two spacious bedrooms, one with an en-suite.

The interior design features 'Tisano Oak' woodgrain and 'Hampton' soft furnishings which feature neutral seating and shades of aubergine, stone and cream with abstract pattern detailing to add interest to curtains and cushions.

The lounge has freestanding sofas, a glass top coffee table and a feature wall between the front aspect sliding doors with a Sony 40" TV and an 'Opti Myst' feature flame fire (no heat). Framed pictures, standard lamp, dimmable lighting and a mirror add finishing touches. The modern Cooke and Lewis 'Raffello' full gloss kitchen comes soft close doors and drawers, island unit/breakfast bar with 2 stools and under cupboard and plinth feature lighting. 40mm laminate work tops have matching upstands. All mod cons are fitted including a 5 burner gas

hob with CDA lift up extractor fan, integrated fridge-freezer, microwave, dishwasher and a wine cooler. The dining area has feature wallpaper, dining table with wooden cross frame legs with a glass top and four dining chairs. There is a side board with Bose sound system behind the dining table. Additional space allows for a separate utility room, which houses the central heating boiler, a washer/dryer and sink unit.

double bed with luxury Duvalay mattress, padded headboard and illuminated feature panel above. There is a large wardrobe with sliding glass robe doors which also houses an illuminated vanity area with mirror and socket. Bedside cabinets provide additional storage. There is provision for a 32" flat screen TV, LED lights in the robe and pelmets plus LED lit mirror and decorative wall panels to finish the master suite.

The en-suite has a walk in shower cubicle with feature wall panel and a freestanding bath with feature tap. The sink is integrated into a vanity unit and there are two chrome finish towel radiators and an illuminated, infrared sensor and backlit mirror with demisting pad.

Nick Page, Commercial Director for Swift Group, commented: "We are excited to launch the new Whistler Lodge Twin Unit, a first for Swift Group, to the parks and their customers. It builds on the extensive knowledge and expertise we have developed in the Holiday Home market. We were aiming for a high quality, luxury feel with contemporary styling and are delighted with the finished design and specification. We look forward to receiving our customers' feedback."
